

Cascade Airport Advisory Committee Meeting Minutes

Date: 4 June 2019

Time: 7:00PM

Location: Cascade Airport FBO

Present: Rob Terry, Wes Smith, Ryan Campbell, Ray Arnold, Tobie Olson, Tom Byrne

1. Kevin Bissel (TO Engineers) submitted a new hangar layout drawing to FAA, and it was approved without the requirement to amend the airport masterplan. It will require
2. There's a discrepancy between invoices that TO Engineers has billed and what the city has recorded. Need to dig deeper to see where the problem is. Unsure now if we've
3. The design for the sealcoat of the runway will be 100% covered by FAA grant and can proceed now. The actual sealcoat work will still require the city to pay its share (~7% of project cost) and will take place at the same time as the apron/ramp project next summer.
4. CARES Act gave airport \$30k, which will help with operating budget.
5. The apron/ramp construction and seal coating will cost \$1.7M and is scheduled for summer/fall 2021. The city will need to pay for ~7% of it, which could be an issue based on likely funding levels for the airport for 2020-2021 fiscal year. However, if TO Engineering billed some of the work into FY2021-22, then we think it could still proceed. Need to confirm with Kevin that we can split the bills between the two fiscal years.
6. Motion to adjourn at 7:45PM by Ray, seconded by Tobie. All in favor.
