Doug Green
Kestler Maynard

Building Inspector and City Code Enforcement

Darryl Shepard

FIREWISE LANDSCAPES

Build defensible space around your home.

More fire resistant plants share characteristics. They often:

- * have a higher moisture content in their leaves
- * have little seasonal buildup of dead vegetation
- * have low, compact growth form
- * are high in soap or salt content
- * have green stems
- * are drought tolerant

Less fire resistant plants typically share one or more of the following characteristics. They often:

- * are water-stressed
- * accumulate fine, twiggy, dry, or dead material
- * are evergreen
- * have stiff, leathery, small, or fine, lacy leaves
- * have loose or papery bark
- * will flame when preheated ignited with a match
- * retain low-growing branches even as they become shaded

Plant Types	
Succulents	More Fire Resistant
Ground Covers	
Turf	
Annuals	
Perennials	
Deciduous Trees	
Shrubs	
Grasses	
Conifers	Least Fire Resistant

Please, **BE WATER WISE**

Measure Your Sprinkler Output Without knowing it, you could easily drop up to 300 gallons of water in one hour and end up over-watering your lawn. Here's how to test your sprinkler output so you can adjust your watering time: Place six to eight shallow, flat-bottomed cans at scattered locations around your lawn. Tuna or cat food cans work well.

Run your sprinklers for 15 minutes.

Use a ruler to measure the depth of water in each can. Add all the numbers, and then divide by the number of cans to find the average output.

This average number is your sprinkler number. It is the average amount of water your sprinklers apply in 15 minutes.

How long and how often should you water? After you've calculated your sprinkler number in the previous step, you can calculate how long to run your sprinklers. Simply locate your sprinkler number in the chart below, and then find the corresponding watering time.

Sprinkler Run Time to Apply 1 Inch

Sprinkler #	0.2, 0.3, 0.4, 0.5, 0.6, 0.7, 0.8, 0.9, 1.0
Watering Time	75, 50, 37, 30, 25, 22, 19, 16, 15

(in minutes)

It's a bubbler, not a sprinkler!

Please **do not** adjust these irrigation tools. They are on timers and will turn on at 10pm and 7am. Additional planters need to be watered by hand.

YOUR SAFETY

Native animals who eat human food...

May bite, scratch or threaten other visitors.

May come into conflict with your pets.

May spread disease.

Dear Cascade Residents,

though the City Hall building continues to be closed to the public, we're still working for you. We are conducting daily business with minimum exposure to the public for everyone's safety. Here is how we'll accomplish this.

City Council Meetings - open to the public digitally.

City Building Inspector - by appointment only.

Mayor - via telephone and appointment.

Utility Billing - pay online, US Mail, check or money order via drop slot in door. Give us a call, we are happy to set up your autopay account for you.

Questions for the Mayor, Clerks office, Public Works or Code Enforcement? Your calls will be answered remotely or you will be able to leave a message and someone will get back with you in a timely manner.

As always, to reach City Hall dial 208-382-4279

XPRESS BILL PAY

Give us a call, we'll set it up for you In a matter of minutes.

208-382-4279

Carefulness costs you nothing.
