In late June, Alzar students visiting from Boston worked on the Strand section of the North Fork of the Payette River and access path. Students completed a fence section and planted willows in areas that were eroded by foot traffic.

This project was in partnership with the Valley Soil and Water Conservation District

Monthly Water Testing Results

Public utilities are required by law to take many expensive samples each month. They also must pay the employees that run them, as well as cover administrative costs.

The City of Cascade tests drinking water based on requirements specific to our permit. The testing locations are dictated by Idaho DEQ based on our water distribution system. Water testing occurs in areas with close proximity to our gravity fed tanks and end of the line locations.

Results:
In compliance.
No exceedences.

**Bats are good.
Rabies isn't.**

Learn more at
CDH.Idaho.gov

The purpose of this health campaign is to educate people in Valley County on what to do if they come into contact with a bat and what they can do to stay safe. We also want to educate homeowners on how to inform their guests (either personal or vacation renters) about rabies and how to stay safe if they come into contact with a bat.
