Monthly Water Testing Results

Public utilities are required by law to take many expensive samples each month. They also must pay the employees that run them, as well as cover administrative costs.

The City of Cascade tests drinking water based on requirements specific to our permit. The testing locations are dictated by Idaho DEQ based on our water distribution system. Water testing occurs in areas with close proximity to our gravity fed tanks and end of the line locations.

Please, **BE WATER WISE**

Over the past few years, the City of Cascade has been working with multiple agencies on upgrading the City's stormwater system. These projects divert stormwater efficiently and help curb erosion into the river. They also keep stormwater out of the sewer lagoons keeping the wastewater processing system healthy.

Stormwater runoff is a fact of life. YOU can do your part to improve the effects of stormwater on rivers, lakes, and streams by picking up trash, using fewer chemicals, fertilizers, pesticides, and by picking up pet waste and disposing of it properly. *Thank You!*
