Volume VI June 2025

Mayor's Monthly Coffee Klatch

June 11, 2025 at 9:00 to 9:30 am

Bring your coffee to City Hall and chat with Mayor Nissula who will keep you updated on active and planned city projects.

Service
Way

Cascade St.
to
W. Market

Project Completed!

We invite Idahoans to show their love for our small businesses. Your support helps to preserve jobs and local character that keep Idaho's communities vibrant.

Look for updates on the
City website at
geothermal@cascadeid.us
and complete the survey.

When? Friday, 6/6/25

Monthly Water Testing Results

Public utilities are required by law to take many expensive samples each month. They also must pay the employees that run them, as well as cover administrative costs.

The City of Cascade tests drinking water based on requirements specific to our permit. The testing locations are dictated by Idaho DEQ based on our water distribution system. Water testing occurs in areas with close proximity to our gravity fed tanks and end of the line locations.

Collection Date and Collection Times:

05/01/25 at 10:15am, 10:30am

Results:

In compliance.
No exceedances.

*"In June, as many as a dozen
species may burst their buds on
a single day. No man can heed
all of these anniversaries; no
man can ignore all of them."*

GEO THERMAL 101

Geothermal Heat Pumps: These systems utilize the stable temperatures found just below the Earth's surface to heat and cool buildings. During winter, they extract heat from the ground to warm indoor spaces, and in summer, they transfer heat from the building back into the ground.

Benefits of Geothermal Energy

Renewable and Sustainable: Geothermal energy is a renewable resource that can be harnessed continuously without depleting the Earth's heat.

Low Emissions: Geothermal energy can create jobs and stimulate local economies through the development of geothermal power plants and related infrastructure.

Low Emissions: Geothermal power plans produce minimal greenhouse gas emissions compared to fossil fuel-based power generation, making them an environmentally friendly option.

In summary, geothermal energy represents a clean, reliable, and sustainable energy source that can play a significant role in the transition to renewable energy systems. Its diverse applications and environmental benefits make it an essential component of the global energy landscape.

Are you building, replacing or remodeling in or around your home?

Replacing window's, re-roofing, repairing a deck?

A BUILDING PERMIT IS REQUIRED.

Avoid delays & save money - check in with the building department BEFORE you or your contractor begins work.
