Re: Notice of Filing — Idaho Power's 2027 Idaho and Montana Wildfire Mitigation Plan

Attn: Stakeholders and Interested Parties

In accordance with Idaho Code § 61-1804(2), Idaho Power hereby provides notice to the state forester, cities, counties, fire protection districts, fire protection associations, and timber protection associations within its Idaho service area that, on October 1, 2026, it filed its 2027 Idaho and Montana Wildfire Mitigation Plan (WMP) with the Idaho Public Utilities Commission (IPUC) for its review and approval in accordance with the Wildfire Standard of Care Act (Chapter 18, Title 61, Idaho Code) and IPUC Order No. 36774. The 2027 WMP represents Idaho Power's seventh plan since its inaugural WMP was submitted to the IPUC in 2021.

Idaho Power's approach to mitigating wildfire risk is designed to protect the public interest, reflect the size and complexity of Idaho Power's operations, and consider the specific wildfire risks present within areas where Idaho Power has infrastructure and equipment. The purpose of Idaho Power's WMP is to guide wildfire mitigation strategies and reduce wildfire risk, supporting Idaho Power's focus on customer and community safety and the safe, reliable, and affordable delivery of energy. Idaho Power's 2027 Idaho and Montana WMP is built around the following key components:

- **Geographical Risk Assessment.** Idaho Power uses a risk-informed approach that considers wildfire probability and consequence to identify areas that may be subject to potential heightened wildfire risk in areas where Idaho Power has infrastructure and equipment.
- **Mitigation Approach:** Idaho Power employs a risk-informed cost and benefit balancing approach to select and prioritize wildfire mitigations carried out to reduce wildfire risk, which include:
 - Situational awareness capabilities
 - Workforce preparedness
 - Operational practices, including Enhanced Powerline Safety Settings
 - Asset management and inspection programs
 - System hardening and other line design strategies
 - Vegetation management around electric infrastructure
 - Additional preventative actions and programs
 - Customer and stakeholder communication and outreach
 - Coordination with government agencies, industry groups, and peer utilities
- **Performance Monitoring:** Idaho Power monitors program performance and compliance.

(Continued on reverse side)

Visit idahopower.com/wildfire for more information on Idaho Power's work to reduce the risk of wildfires.

How to Participate:

Idaho Power's 2027 WMP has been submitted to the IPUC for its review and approval and is available for public review. Copies of the filing are available for public inspection during regular business hours at the IPUC's office located at 11331 W. Chinden Blvd. Building 8, Suite 201-A, Boise, ID 83714, or the IPUC's website at www.puc.idaho.gov. Click on the "ELECTRIC" icon, select "Open Cases," and click on Case No. IPC-E-26-28. Interested parties may also subscribe to the IPUC's RSS feed to receive periodic updates via email about the case.

Written comments regarding Idaho Power's 2027 WMP can be filed with the IPUC; comments are required to be filed through the IPUC's website or by e-mail unless computer access is not available. To comment electronically, visit puc.idaho.gov and click on the "Case Comment Form" link on the upper left side of the page. Please use case number IPC-E-26-28 when filling out the form. To comment using e-mail, please send comments to the e-mail addresses listed below and include case number IPC-E-26-28. Commenters are required to include their name and address. If computer access is not available, comments can be mailed to the IPUC secretary and Idaho Power at the addresses listed below. Commenters are required to include case number IPC-E-26-28, as well as their name and address.
